REPORT OF SUPERINTENDENT OF SCHOOLS

School Board of Campton School District:

I hereby submit my fifth annual report as Superintendent of Schools.

The statistical tables for the year 1937-1938 follow this report.

Since my last report Phyllis A. Adams of the Blair School accepted another position and Carrie Smith was transferred to this school from the Beebe River primary room. Eleanor Stimson was transferred from the Center School to the Beebe River primary room. Elizabeth Merrill, a teacher of successful experience, was appointed teacher at the Center School. The schools of the district are motivating well and the children engaged in pleasant worthwhile activities.

The attendance of approximately 40 at the Village Grammar School is a crowded enrollment and the teacher is meeting a difficult situation in an able manner. The school appears well organized and the children respond well to the instruction. It is hoped that another year the enrollment of the two rooms of this building will naturally adjust itself, otherwise, the district will have a serious problem in the grammar room.

During the summer the West Road School was renovated and enlarged so that there is plenty of room. It was painted inside and out. At the present writing there are 13 scholars enrolled. Five of these are from Ellsworth and are tuition scholars. These out-of-town children bring the enrollment of the school up so that there is no question of state aid owing to the size of the school. The five Holderness children bring the enrollment of the Livermore Falls school up to sixteen, a good working enrollment for a rural school.

There are approximately 63 pupils of the district attending the Plymouth High School and two in other secondary schools of the state.

There is grave question in the mind of this supervisor as to the propriety of the elaborate programs conducted in some of the schools incident to Thanksgiving, Christmas, and other holidays. The writer would be the last to deny children a reasonably number of informal parties and good times, but fears that teachers in a conscientious effort to keep up the current work and put on a show at the same time, may be overtaxing the mental and nervous energy of the children. The asking of teachers to have their children put on a "number or two" in community programs should be exercised with great discretion. The general public will get a much better picture of their schools by occasionally making unannounced visits than attending prepared programs.

The indebtedness of the district is now reduced to \$1,500.00 and will be liquidated in two years. The prudent and careful financing of the Board left a balance of \$1,330.47 at the end of the year. The per pupil cost of elementary schools in the district last year was \$ 68.67 while the medium for the state was \$79.98. This means the actual operation of the schools plus cost of administration, fixed charges and per capita tax, the latter item both high and elementary. It does not include outlay for construction and equipment, nor debt and interest. It appears that the state per capita cost increased \$2.82, while the per capita tax decreased \$1.49 in the district.

The reported seven school board meetings and twenty-three visits by members of the Board shows a sustained interest and competent management of the schools.

Respectfully submitted,

ALLAN M. McCURDY,

Superintendent of Schools.

February 10, 1939.
